

MICHEL'S RESEARCH TEMPLATE

	Resource Citation	Notes	Source evaluation	Issues, topics covered
1	<i>Create an MLA Citation for resource.</i>	<i>Record your notes here. Use bullet points, key words, pictures etc. Whatever helps you.</i>	<i>Evaluate your sources as you go as this is important for your report later. Use the CRAAP test (Currency, Reliability, Authority, Accuracy and Purpose)</i>	<i>Make a note of what aspect of your project the source helps with. This means you can scan your notes for areas you want to review, revisit, quote from to support your personal report writing.</i>
2	Hardy, John. "What Type of Wood Works Best for inside Wall ." 10 Jan. 2020.	<ul style="list-style-type: none"> -Mr. Hardy suggested MDF wood for my wall. - It is smooth and can be easily cut. - He also said it was easy to hang on walls that are not always flat. 	<p>C- I meet with Ms. Hardy at the beginning of my project in January.</p> <p>R-Our interview is relevant in he helped me choose the best wood for my project.</p> <p>A- Mr. Hardy has worked at Home depot for 10 years in the lumber department.</p> <p>A- Because Mr. Hardy is an employee of Home depot and trying to sell a product I needed to go home and research the MDF he suggested a bit more, but turns out he was right.</p> <p>P- Our interview was proposed by me and the purpose was to find out the best possible materials to use for my project. As noted before I did realize Mr. Hardy was trying to sell a product.</p>	<p>This interview helped me select the correct materials for my project.</p> <p>Mr. Hardy explained to me the difference in the types of wood trim and gave me good reasons that the MDF wood was a good product for my needs. He said, "MDF trim is smooth, easily flexible, easy to hang, and easy to cut."</p>
3	Bower, Katie. "Board & Batton Accent Wall." <i>Bower Power-The Blog about Everything and Nothing</i> , AN ELITE CAFEMEDIA HOME/DIY PUBLISHER, 11 Dec. 2014, www.bowerpowerblog.com/ .	<ul style="list-style-type: none"> - from this blog I created a list of supplies I needed for my project. -I learned the steps that I needed to take to make the wall. -blog had good pictures of the process 	<p>C- date for webpage is 2014, fairly current</p> <p>R- step by step manual on how to create the wall. They people had created a wall in their bedroom and had experience doing it.</p> <p>A-the only proof that the creators are experts are the pictures. I will have to look at other resources to see if the follow similar steps and methods.</p> <p>P- purpose of the page was to teach others how to make the wall but the website also contains a lot of advertisements for companies that sell the products needed to create the wall.</p>	<p>This weblog helped me with supplies I needed to purchase and with the steps I need to follow to create the wall. I will need to visit a few more sites to make sure that these steps are the easiest to follow. I also want to get more information about using caulking and wood putty to fill in the holes.</p>
